

STAGE 2

Solid Chlorinated Laundry Detergent

CLEANING SOLUTIONS FOR THE HEALTH OF YOUR BUSINESS.

STAGE 2

Solid Chlorinated Laundry Detergent

STAGE 2 is a solid laundry detergent with a unique formula that cleans deep down into fibers to lift away soil and condition fabric. It cleans and whitens in one easy step, and combines detergent cleaners, water conditioners and soil suspenders with chlorine power to deliver a solid performance.

Super concentrated chlorinated formula attacks soil and stains for easy removal during a laundry wash process.

Soil suspension and water conditioning agents prevent dulling and graying of fabrics.

Solid form cannot be spilled; promotes safe handling by employees.

Cannot be accidentally mixed with sour to generate dangerous chlorine gas.

Each capsule yields approximately 240 (50 lb) loads.
