

FINALE PLUS

FABRIC SOFTENER, NEUTRALIZER, IRON CONTROL AGENT

FEATURES

- CONTROLS pH
- IRON CONTROL
- SOFTENS FABRICS
- ELIMINATES STATIC

PRODUCT DESCRIPTION

FINALE PLUS is a balanced blend of fabric softening agents and a laundry sour. Softened linens have a softer, smoother feel; towels and diapers are fluffier; clothes have fewer wrinkles requiring less ironing. It also neutralizes the alkaline detergent residues and water hardness minerals that cause iron staining and graying of fabric. **FINALE PLUS** has proven to be very economical to use in all institutional laundries.

AREAS OF USE

For institutional laundry use only. Do not use with ammonia or bleaches.

USE DIRECTIONS

Dispense **FINALE PLUS** directly from its shipping container using an automatic liquid dispensing system. The authorized representative servicing your facility will establish a program suitable for your individual requirements.
