CORRECTIONAL & PROBATION FACILITIES

LAUNDRY & HOUSEKEEPING SOLUTIONS

AN EFFICIENT LAUNDRY SYSTEM TO PROVIDE A SANITARY, SAFE, AND SECURE ENVIRONMENT.

Correctional and Probation facilities require heavy-duty washers and the right products capable of handling a variety of items; including bedding, towels, personals, mop heads, and rags. Laundry chemicals need to be handled in a safe manner, while also being secured from the inmate population.

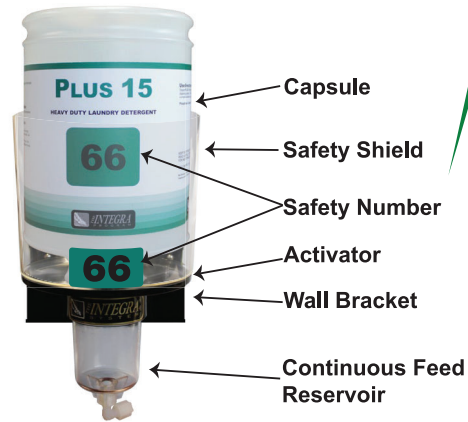

The INTEGRA System accomplishes both! It allows your laundry chemicals to be placed away from both the washers and inmates. In addition, our one gallon capsules are easy to account for and can be removed and secured when the laundry is not in operation.

THE INTEGRA SYSTEM

The INTEGRA System® starts with the INTEGRA® capsule. The capsule is unique, because all INTEGRA® products are packaged in one-gallon containers to save you storage space and eliminate heavy lifting by your employees. The capsules are inverted, allowing you to completely empty the contents of the capsule, using 100% of the products.

The capsule comes to you factory sealed by INTEGRA®'s proprietary **SurSeal Insert**. The insert is designed to open the capsule only when it is properly put in place in the INTEGRA® **Activator**. If removed from this position, the capsule re-seals itself.

The INTEGRA System® is mounted on the wall, saving additional space and keeping your laundry area cleaned and efficient.

DOSE by SURFLEX HOUSEKEEPING SYSTEMS

DOSE is engineered to be simple, accurate and cost competitive.

2 Simple Steps! Add water to quart bottle and dispense chemical concentrate into quart bottle.

Cleaning Simplified!

INTEGRA LAUNDRY PRODUCTS
