EMERGENCY SERVICES INDUSTRY

First responders depend on their equipment to keep them safe. With **The INTEGRA Program**[®], we use “**Just the Right Chemistry**”[®] to protect you and your equipment.

CARE & CLEANING OF TURNOUT GEAR

With frequent exposure to chemicals, smoke biological toxins and other contaminants, the proper care and maintenance of turnout gear is essential.

The INTEGRA Program[®] focuses on 2 key elements:

1. Keeping gear clean and operating at its optimum level.
2. Keeping you and your family safe by removing potential carcinogens and biological contamination.

THE CORE PROGRAM IS BUILT ON TWO PRODUCTS

TURNOUT... Ultra Concentrated Detergent

A concentrated detergent specifically designed to meet the NFPA 1851 7.3.7 criteria. **TURNOUT** is safe on protective apparel and general laundry.
Order #PYL3562 (2/1 gal case)

LAUNDRY GUARD... Laundry Sanitizer

EPA Reg. No. 7048-15-150 EPA Est. No. 150-MN-1
Reduces bacteria counts by 99.9%, kills HIV-1, MRSA, and helps eliminate blood-borne pathogens and sanitizes protective gear.
Order #PLY3049 (2/1 gal case)

Please check your gear manufacturer for any specific laundering instructions.

- High Performance Technology
- Proprietary Dispensing System

Proper care and maintenance of other equipment and your facility is important to keep the team safe and equipment operating properly.

FACILITY CLEANING

BRILLIANT... Glass & Multi-Surface Cleaner

Streak-free cleaning across a variety of hard surfaces.

NATURAL DOSE... All-Purpose Cleaner/Degreaser

Neutral pH cleaner and degreaser that is a safe alternative to harsh products.

DEFEND... Cleaner & Disinfectant

EPA REG. No. 1839-95-150 EPA EST. No. 150-MN-1

Cleaner, disinfectant and virucide. Designed to provide effective cleaning and disinfection when used as directed.

PRISTINE... Mild Acid Restroom Cleaner

Designed remove soils, soap film and hard water deposits from restrooms, showers and fixtures.

STELLAR... Neutral Floor Cleaner

A blend of surfactants and water conditioners that are effective on both breaking up soils and keeping them in suspension so they don't resettle on the floor.

SAFE WASH... Foaming Vehicle Wash

A high foam vehicle cleaning detergent used in automatic brush wash equipment, foamy brushes or hand applied vehicle cleaner. Aluminum safe and quickly penetrates tough soils.

FOODSERVICE

PRISM... Manual Pot & Pan Detergent

A pot & pan detergent designed to cut through tough greasy soils while being mild on skin.

BARRIER II... No-Rinse Quat Sanitizer (Triple Sink)

EPA REG. NO. 1839-86-150 EPA EST. NO. 150-MN-1

No-rinse quaternary sanitizer which can be safely used on surfaces and is approved as a final sanitizing rinse or food contact surfaces. Designed to provide effective sanitizing or disinfecting when used as directed.

DEFY... Heavy-Duty Kitchen Cleaner

Used on a wide variety of surfaces to remove greasy build-up and soils.

*DEFEND and BARRIER II have demonstrated effectiveness against viruses similar to SARS-CoV-2. This product can be used against SARS-CoV-2 (COVID-19) when used in accordance with the directions on hard, non-porous surfaces. See "The INTEGRA Program" website www.theintegraprogram.com for additional information on directions, applications and efficacy against COVID19.

Let "The INTEGRA Program" handle your cleaning and sanitation needs and allow you to focus on what you do best!

10 Reasons you should be using The INTEGRA System®

- 1 INTEGRA® capsules are inverted, which allows you to completely empty the contents of the capsule, using 100% of the products.
- 2 INTEGRA® products come factory sealed. They do not open until they are correctly placed in the INTEGRA® Activator. Capsules also re-seal when removed from the Activator. These features promote employee safety.
- 3 INTEGRA® products come in one-gallon containers. This eliminates heavy lifting and reduces possible workmen's comp claims.
- 4 INTEGRA® capsules are compact and easy to store, taking only half the space of conventional packaging.
- 5 The INTEGRA System® is modular. Capsules can be placed where it's easy for employees to see and change them. No buckets behind the machine or hidden under the table empty!

- 6 With the exclusive Safety Shield, INTEGRA® systems have a built-in spill containment ability.
- 7 Users don't have to touch chemicals when changing containers. Capsules are completely disposable and recyclable.
- 8 The Continuous Feed Reservoir holds 8 ozs. When the capsule is empty, you still have 8 ozs. of product to keep you running while changing capsules.
- 9 INTEGRA® systems serve both kitchen and laundry areas, so employees will not be confused with different "systems" when working in other areas of your facility.
- 10 INTEGRA® systems mount on the wall eliminating chemical messes on your floors and around equipment. This also avoids possible health department issues with products on the floor.
