

SAFETY DATA SHEET

Issue Date 31-Jul-2014

Product Name

Revision Date 31-Jul-2014

Version 1

1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING

Other means of identification	
Product Code	263
Synonyms	None

Recommended use of the chemical and restrictions on use **Recommended Use** All-Temp Rinse Aid. No information available Uses advised against

Manufacturer Address

Anderson Chemical Company, 325 South Davis Avenue, Litchfield, MN 55355 (320-693-2477)

SPOTLESS

Emergency telephone number

Chemtrec 1-800-424-9300

2. HAZARDS IDENTIFICATION

Classification

Skin corrosion/irritation	Category 2
Serious eye damage/eye irritation	Category 2B

Label elements

Emergency Overview		
Warning		
Hazard statements		
Causes eye irritation		
Causes skin irritation		
Appearance aqueous solution	Physical state liquid	Odor None

Precautionary Statements - Prevention

Wash hands and exposed skin thoroughly after handling Wear protective gloves

Precautionary Statements - Response

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing If eye irritation persists: Get medical advice/attention Specific treatment (see Section 4 on this label) IF ON SKIN: Wash with plenty of soap and water If skin irritation occurs: Get medical advice/attention Take off contaminated clothing and wash before reuse

Hazards not otherwise classified (HNOC) Other Information

Unknown Acute Toxicity

33% of the mixture consists of ingredient(s) of unknown toxicity

3. COMPOSITION/INFORMATION ON INGREDIENTS

This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).

*The exact percentage (concentration) of composition has been withheld as a trade secret.

4. FIRST AID MEASURES		
First aid measures		
Eye contact	Flush immediately with water for 15 minutes. Lift upper and lower eyelids for complete rinsing. Get immediate medical attention.	
Skin Contact	Flush with water for 15 minutes. If irritation persists after rinsing, get medical attention. Remove contaminated clothing and wash before reuse.	
Inhalation	Remove victim to fresh air. If breathing difficulty occurs or persists, get medical attention.	
Ingestion	Rinse mouth with water. Give water to dilute. Do not induce vomiting. Get immediate medical attention. Never give anything by mouth to a semi-comatose, comatose, convulsing or unconscious person.	
Self-protection of the first aider	No information available.	
Most important symptoms and effects, both acute and delayed		
Symptoms	No information available.	
Indication of any immediate medical attention and special treatment needed		
Note to physicians	Treat symptomatically.	
5. FIRE-FIGHTING MEASURES		

Suitable extinguishing media

Water. Foam. Dry chemical.

Unsuitable extinguishing media No information available.

Specific hazards arising from the chemical

No information available.

Hazardous combustion productsNo information available.

Explosion data Sensitivity to Mechanical Impact None. Sensitivity to Static Discharge None.

Protective equipment and precautions for firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

T. HANDLING AND STORAGE Precautions for safe handling Handle in accordance with good industrial hygiene and safety practice. Conditions for safe storage, including any incompatibilities Storage Conditions Keep out of the reach of children. Keep tightly closed in a dry and cool place. Incompatible materials None known based on information supplied. Incompatible materials None known based on information supplied. Control parameters. Exposure Controls/PERSONAL PROTECTION Control parameters. Exposure Guidelines Appropriate engineering controls Second stations. Individual protection measures, such as personal protective equipment Eye/face protection Eye protection is recommended. Skin and body protection Not required for normal use. If contact is likely, wear protective gloves. If contact wear protective clothing appropriate to use conditions. Respiratory protection If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approv respiratory protection should be worn. Positive-pressure supplied air respirators or respiratory protection		
Methods for containment Remove free liquid. Contain spill and keep from entering waterways or sewers. Methods for cleaning up Soak up with inert absorbent material. After cleaning, flush away traces with waterials Methods for cleaning up Soak up with inert absorbent material. After cleaning, flush away traces with waterials Precautions for safe handling Handle in accordance with good industrial hygiene and safety practice. Conditions for safe storage, including any incompatibilities Storage Conditions Keep out of the reach of children. Keep tightly closed in a dry and cool place. Incompatible materials None known based on information supplied. Exprosure Control S/PERSONAL PROTECTION Control parameters. Exposure Guidelines . Appropriate engineering controls Eye protection is recommended. Skin and body protection Eye protection is recommended. Skin and body protection Not required for normal use. If contact is likely, wear protective gloves. If contact wear protective clothing appropriate to use conditions. Respiratory protection If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approv respirators, required for high airborne contaminant concentrations. Respiratory protection for high airborne contaminant concentrations. Respiratory protection for high airborne contaminant concentrations.	Personal precautions	Use personal protective equipment as required.
Methods for cleaning up Soak up with inert absorbent material. After cleaning, flush away traces with wate 7. HANDLING AND STORAGE Precautions for safe handling Handle in accordance with good industrial hygiene and safety practice. Conditions for safe storage, including any incompatibilities Storage Conditions Keep out of the reach of children. Keep tightly closed in a dry and cool place. Incompatible materials None known based on information supplied. 8. EXPOSURE CONTROLS/PERSONAL PROTECTION Control parameters. Exposure Guidelines Appropriate engineering controls Eyewash stations. Individual protection measures, such as personal protective equipment Eye/face protection Eye protection is recommended. Skin and body protection Not required for normal use. If contact is likely, wear protective gloves. If contact wear protective clothing appropriate to use conditions. Respiratory protection If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approvier required for high airborne contaminant concentrations. Respiratory protection mu provided in accordance with current local regulations.	Environmental precautions	See Section 12 for additional ecological information.
T. HANDLING AND STORAGE Precautions for safe handling Advice on safe handling Handle in accordance with good industrial hygiene and safety practice. Conditions for safe storage, including any incompatibilities Storage Conditions Storage Conditions Keep out of the reach of children. Keep tightly closed in a dry and cool place. Incompatible materials None known based on information supplied. Control parameters Exposure Guidelines . Appropriate engineering controls Eyewash stations. Individual protection measures, such as personal protective equipment Eye/face protection Eye protection Eye protection is recommended. Skin and body protection Not required for normal use. If contact is likely, wear protective gloves. If contact wear protective clothing appropriate to use conditions. Respiratory protection If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approv respiratory protection should be worn. Positive-pressure supplied air respirators required for high airborne contaminant concentrations. Respiratory protection mu provided in accordance with current local regulations.	Methods for containment	Remove free liquid. Contain spill and keep from entering waterways or sewers.
Precautions for safe handling Advice on safe handling Handle in accordance with good industrial hygiene and safety practice. Conditions for safe storage, including any incompatibilities Storage Conditions Keep out of the reach of children. Keep tightly closed in a dry and cool place. Incompatible materials None known based on information supplied. Control parameters Exposure Controls Exposure Guidelines . Appropriate engineering controls . Eyewash stations. Individual protection measures, such as personal protective equipment Eye/face protection Eye protection is recommended. Skin and body protection Not required for normal use. If contact is likely, wear protective gloves. If contact wear protective clothing appropriate to use conditions. Respiratory protection If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approv respiratory protection should be worn. Positive-pressure supplied air respirators required for high airborne contaminant concentrations. Respiratory protection mu provided in accordance with current local regulations.	Methods for cleaning up	Soak up with inert absorbent material. After cleaning, flush away traces with water.
Advice on safe handling Handle in accordance with good industrial hygiene and safety practice. Conditions for safe storage, including any incompatibilities Storage Conditions Storage Conditions Keep out of the reach of children. Keep tightly closed in a dry and cool place. Incompatible materials None known based on information supplied. Control parameters 8. EXPOSURE CONTROLS/PERSONAL PROTECTION Control parameters 8. Exposure Guidelines Appropriate engineering controls		7. HANDLING AND STORAGE
Conditions for safe storage, including any incompatibilities Storage Conditions Keep out of the reach of children. Keep tightly closed in a dry and cool place. Incompatible materials None known based on information supplied. Exposure Control parameters Exposure Control S/PERSONAL PROTECTION Control parameters Exposure Guidelines Appropriate engineering controls - Eyewash stations. Individual protection measures, such as personal protective equipment Eye/face protection Eye protection is recommended. Skin and body protection Not required for normal use. If contact is likely, wear protective gloves. If contact wear protective clothing appropriate to use conditions. Respiratory protection If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approv respiratory protection should be worn. Positive-pressure supplied air respirators or required for high airborne contaminant concentrations. Respiratory protection mu provided in accordance with current local regulations.	Precautions for safe handling	
Storage Conditions Keep out of the reach of children. Keep tightly closed in a dry and cool place. Incompatible materials None known based on information supplied. 8. EXPOSURE CONTROLS/PERSONAL PROTECTION Control parameters Exposure Guidelines Appropriate engineering controls Eyewash stations. Individual protection measures, such as personal protective equipment Eye/face protection Eye protection is recommended. Skin and body protection Not required for normal use. If contact is likely, wear protective gloves. If contact wear protective clothing appropriate to use conditions. Respiratory protection If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approv respiratory protection should be worn. Positive-pressure supplied air respirators or required for high airborne contaminant concentrations. Respiratory protection mu provided in accordance with current local regulations.	Advice on safe handling	Handle in accordance with good industrial hygiene and safety practice.
Incompatible materials None known based on information supplied. 8. EXPOSURE CONTROLS/PERSONAL PROTECTION Control parameters Exposure Guidelines Appropriate engineering controls Eyewash stations. Individual protection measures, such as personal protective equipment Eye/face protection Eye protection is recommended. Skin and body protection Not required for normal use. If contact is likely, wear protective gloves. If contact wear protective clothing appropriate to use conditions. Respiratory protection If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approv respiratory protection should be worn. Positive-pressure supplied air respirators required for high airborne contaminant concentrations. Respiratory protection mu provided in accordance with current local regulations.	Conditions for safe storage, includ	ing any incompatibilities
8. EXPOSURE CONTROLS/PERSONAL PROTECTION Control parameters Exposure Guidelines Appropriate engineering controls Eyewash stations. Individual protection measures, such as personal protective equipment Eye/face protection Eye protection is recommended. Skin and body protection Not required for normal use. If contact is likely, wear protective gloves. If contact wear protective clothing appropriate to use conditions. Respiratory protection If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approv respiratory protection should be worn. Positive-pressure supplied air respirators or required for high airborne contaminant concentrations. Respiratory protection mu provided in accordance with current local regulations.	Storage Conditions	Keep out of the reach of children. Keep tightly closed in a dry and cool place.
Control parameters Exposure Guidelines . Appropriate engineering controls Eyewash stations. Individual protection measures, such as personal protective equipment Eye/face protection Eye protection is recommended. Skin and body protection Not required for normal use. If contact is likely, wear protective gloves. If contact wear protective clothing appropriate to use conditions. Respiratory protection If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approv respiratory protection should be worn. Positive-pressure supplied air respirators required for high airborne contaminant concentrations. Respiratory protection mu provided in accordance with current local regulations.	Incompatible materials	None known based on information supplied.
Exposure Guidelines Appropriate engineering controls Eyewash stations. Eyewash stations. Individual protection measures, such as personal protective equipment Eye/face protection Eye/face protection Eye protection is recommended. Skin and body protection Not required for normal use. If contact is likely, wear protective gloves. If contact wear protective clothing appropriate to use conditions. Respiratory protection If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approver respiratory protection should be worn. Positive-pressure supplied air respirators or required for high airborne contaminant concentrations. Respiratory protection multiprovided in accordance with current local regulations.	8. EX	POSURE CONTROLS/PERSONAL PROTECTION
Appropriate engineering controls Eyewash stations. Individual protection measures, such as personal protective equipment Eye/face protection Eye protection is recommended. Skin and body protection Not required for normal use. If contact is likely, wear protective gloves. If contact wear protective clothing appropriate to use conditions. Respiratory protection If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approvrespiratory protection should be worn. Positive-pressure supplied air respiratory protection mu provided in accordance with current local regulations.	Control parameters	
Individual protection measures, such as personal protective equipmentEye/face protectionEye protection is recommended.Skin and body protectionNot required for normal use. If contact is likely, wear protective gloves. If contact wear protective clothing appropriate to use conditions.Respiratory protectionIf exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approv respiratory protection should be worn. Positive-pressure supplied air respirators r required for high airborne contaminant concentrations. Respiratory protection mu provided in accordance with current local regulations.		
Eye/face protectionEye protection is recommended.Skin and body protectionNot required for normal use. If contact is likely, wear protective gloves. If contact wear protective clothing appropriate to use conditions.Respiratory protectionIf exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approv respiratory protection should be worn. Positive-pressure supplied air respirators r required for high airborne contaminant concentrations. Respiratory protection mu provided in accordance with current local regulations.	Eyewash stations.	
Skin and body protectionNot required for normal use. If contact is likely, wear protective gloves. If contact wear protective clothing appropriate to use conditions.Respiratory protectionIf exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approv respiratory protection should be worn. Positive-pressure supplied air respirators r required for high airborne contaminant concentrations. Respiratory protection mu provided in accordance with current local regulations.	Individual protection measures, su	ch as personal protective equipment
Respiratory protectionIf exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approv respiratory protection should be worn. Positive-pressure supplied air respirators r required for high airborne contaminant concentrations. Respiratory protection mu provided in accordance with current local regulations.	Eye/face protection	Eye protection is recommended.
respiratory protection should be worn. Positive-pressure supplied air respirators r required for high airborne contaminant concentrations. Respiratory protection mu provided in accordance with current local regulations.	Skin and body protection	Not required for normal use. If contact is likely, wear protective gloves. If contact is likely, wear protective clothing appropriate to use conditions.
General Hygiene Considerations Handle in accordance with good industrial hygiene and safety practice.	Respiratory protection	If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn. Positive-pressure supplied air respirators may be required for high airborne contaminant concentrations. Respiratory protection must be provided in accordance with current local regulations.
	General Hygiene Considerations	Handle in accordance with good industrial hygiene and safety practice.

9. PHYSICAL AND CHEMICAL PROPERTIES

Information on basic physical and chemical properties

Physical state Appearance Color	liquid aqueous solution blue clear	Odor Odor threshold	None No information available
<u>Property</u>	Values	Remarks • Method	
рН	7		
Melting point/freezing point	No information available		
Boiling point / boiling range	No information available		
Flash point	No information available		
Evaporation rate	No information available		
Flammability (solid, gas)	No information available		

Flammability Limit in Air
Upper flammability limit:
Lower flammability limit:
Vapor pressure
Vapor density
Specific Gravity
Water solubility
Solubility in other solvents
Partition coefficient
Autoignition temperature
Decomposition temperature
Kinematic viscosity
Dynamic viscosity
Explosive properties
Oxidizing properties
Other Information

Softening point Molecular weight VOC Content (%) Density Bulk density No information available No information available No information available No information available 1.020 completely soluble No information available No information available

No information available No information available No information available No information available No information available

10. STABILITY AND REACTIVITY

Reactivity No data available

Chemical stability

Stable under recommended storage conditions.

Possibility of Hazardous Reactions

None under normal processing.

Conditions to avoid

No information available.

Incompatible materials

None known based on information supplied.

Hazardous Decomposition Products

No information available.

11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure

Product Information	No data available
Inhalation	No data available.
Eye contact	Moderately irritating to the eyes.
Skin Contact	No data available.
Ingestion	No data available.

Information on toxicological effects

Symptoms

No information available.

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Serious eye damage/eye irritation Sensitization	Irritating to eyes. No information available.
Germ cell mutagenicity	No information available.
Carcinogenicity	No information available.
Reproductive toxicity	No information available.
STOT - single exposure	No information available.
STOT - repeated exposure	No information available.
Aspiration hazard	No information available.

Numerical measures of toxicity - Product Information

Unknown Acute Toxicity 33% of the mixture consists of ingredient(s) of unknown toxicity The following values are calculated based on chapter 3.1 of the GHS document .

12. ECOLOGICAL INFORMATION

Ecotoxicity

33% of the mixture consists of components(s) of unknown hazards to the aquatic environment

Persistence and degradability No information available.

Bioaccumulation

No information available.

Other adverse effects	No information available
	13. DISPOSAL CONSIDERATIONS
Waste treatment methods	
Disposal of wastes	Disposal should be in accordance with applicable regional, national and local laws and regulations.
Contaminated packaging	Rinse empty container and offer for recycling.

14. TRANSPORT INFORMATION

DOT

Not regulated

15. REGULATORY INFORMATION

US Federal Regulations

SARA 313

Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product does not contain any chemicals which are subject to the reporting requirements of the Act and Title 40 of the Code of Federal Regulations, Part 372

SARA 311/312 Hazard Categories	
Acute health hazard	Yes
Chronic Health Hazard	No
Fire hazard	No
Sudden release of pressure hazard	No
Reactive Hazard	No

CWA (Clean Water Act)

This product does not contain any substances regulated as pollutants pursuant to the Clean Water Act (40 CFR 122.21 and 40 CFR 122.42)

CERCLA

This material, as supplied, does not contain any substances regulated as hazardous substances under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) (40 CFR 302) or the Superfund Amendments and Reauthorization Act (SARA) (40 CFR 355). There may be specific reporting requirements at the local, regional, or state level pertaining to releases of this material

US State Regulations

California Proposition 65

This product does not contain any Proposition 65 chemicals

U.S. State Right-to-Know Regulations

U.S. EPA Label Information

EPA Pesticide Registration Number Not Applicable
